A2: TERMS OF REFERENCE

APPOINTMENT OF AN INTERNET SERVICE PROVIDER (ISP) FOR THE PROVISION OF INTERNET CONNECTIVITY SERVICES AT CONSTITUTION HILL FOR A PERIOD OF THREE (3) YEARS

1. Introduction

Constitution Hill (ConHill) seeks to appoint a suitably qualified and licenced Internet Service Provider (ISP) for the provision of internet connectivity services for its offices, located in Braamfontein, Johannesburg.

ConHill will be replacing its current Internet Solution (IS) Wi-Band Internet Solution with an upgraded line speed of **a minimum bandwidth of 100 Mbps**. The equipment and software must be continuously upgraded to the latest version for the duration of the contract at no cost to ConHill.

ConHill seeks to conclude a service contract, supported by a Service Level Agreement, for the detailed design, supply, installation, configuration, commissioning and maintenance of a logically and administratively single, resilient, scalable Internet Connectivity Service, for a period of three (3) years.

The anticipated contract commencement date is 01 May 2018.

2. Background

Currently ConHill utilises a 10 Mbps Wi-Band service from Internet Solutions. The service contract terminates at the end of April 2018.

Constitution Hill plans to upgrade the current connection to a minimum of 100 Mbps, with an appropriate service level agreement with guaranteed Quality of Services, to cater for additional growth requirements. The successful bidder will be responsible for this requirement. This will be dedicated to internal business requirements. Business requirements include, but not limited to: data replication to a secure, offsite data centre (IS), hosted exchange (to be confirmed), and hosted Email Exchange (Mimecast, via Afrovation).

In parallel, a process is currently underway where the Constitution Hill site will form part of the Gauteng Provincial Government's Gauteng Broadband Network (GBN) rollout project. Currently, a 100 Mbps fibre-link has been installed, though without any service level agreement (unmanaged).

One of the major requirements of ConHill is the availability of internet facility that has efficient capability to access electronic data and information from different sources.

Considering the above, ConHill deemed it necessary to invite service providers to provide Internet line connection services that shall provide ConHill with efficient, reliable and cost effective internet connection services. The service provider should ensure a smooth transition of the existing services.

3. Purpose of the RFP

ConHill requires network and internet services that will facilitate flow of information between the Braamfontein offices, the Disaster Recovery site and the internet. This will also assist ConHill to

communicate electronically with external parties and stakeholders. Further this service allows users to access ConHill information on the ConHill ICT systems when out of the office. ConHill has its own server environment on the LAN at Braamfontein supported with only routers by the current service provider, Internet Solutions. Applications running on these servers are accessed via a Local Area Network (LAN) by users located at the ConHill offices. Where required by the business, external systems are interfaced with, to transfer data.

4. Purpose of the RFP

ConHill seeks to appoint a service provider to design, supply, installation, configuration, commissioning and maintenance of a logically and administratively single, resilient, scalable Internet Connectivity Service at its office in Braamfontein, Johannesburg, for a period of three (3) years, including a commensurate Service Level Agreement.

The successful service provider will thus be required to provide ConHill with the following:

- a. Provide internet uplink between ConHill (head office and DR site) and the internet through a dedicated bandwidth which does not share bandwidth with the WAN links.
- b. Internet connectivity will be shared by ConHill Head Office and the hosted ConHill systems in the recovery data centre;
- c. Ensure provided services are monitored 24/7/365 from operations centre that is manned by competent technical staff;
- d. Enable ConHill nominated staff access into a comprehensive monitoring (e.g. utilisation, status, quality, uptime and performance) dashboard that have clear indicators and all the probes that are being monitored;
- e. Alert the ConHill nominated staff of any warnings, faults and alarms via SMS, e-mail, etc.;
- f. Monthly reports must be provided to ConHill's ICT staff. The reports must include as a minimum: uptime; utilisation; and performance against Service Level Targets;
- g. A service manager and account manager must be allocated to ConHill to handle all service related queries and escalations;
- h. Transfer and management of all DNS records for ConHill owned domains from the current service provider(s).

The Bidder is expected to plan and conduct the installation of the project with minimal impact to daily operations and staff.

(CHOOSE ONLY IF APPLICABLE)**

This document must be signed and submitted together with your bid

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

- 1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US\$ 10 million or other currency equivalent to US\$ 10 million will have a NIP obligation. This threshold of US\$ 10 million can be reached as follows:
- a) Any single contract with imported content exceeding US\$10 million. Or
 - b) Multiple contracts for the same goods, works or services each with imported content exceeding US\$3 million awarded to one seller over a 2 year period which in total exceeds US\$10 million. Or
 - c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US\$10 million.or
 - d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US\$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US\$10 million.
- 1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30 % of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a pro-rata basis.
- 1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.
- 1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of R10 million (ten million Rands), submit details of such a contract to the DTI for reporting purposes.

2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.

3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Bid / contract number.
- Description of the goods, works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.
- Imported content of the contract, if possible.

3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4 PROCESS TO SATISFY THE NIP OBLIGATION

4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:

- (a) the contractor and the DTI will determine the NIP obligation;
- (b) the contractor and the DTI will sign the NIP obligation agreement;
- (c) the contractor will submit a performance guarantee to the DTI;
- (d) the contractor will submit a business concept for consideration and approval by the DTI;
- (e) upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;
- (f) the contractor will implement the business plans; and
- (g) the contractor will submit bi-annual progress reports on approved plans to the DTI.

4.2 The NIP obligation agreement is between the DTI and the successful bidder (contractor) and, therefore, does not involve the purchasing institution.
